Allied Health
Practice Software

For those without existing practice software, those who are **mobile**, or those who have **multiple sites**. The Allied Health Practice Software is a web based solution that has been designed to meet the modern needs of Allied Health professionals.

Our Practice Software is fast, secure and easy to use. Easily manage all your patients and their reports from progress notes to incoming and outgoing clinical correspondence. With integrated secure messaging you can send letters directly from the practice software or Word Plugin to other health providers on our network. You can even send more complex reports in PDF format.

Patient & Report Management

You can manage all your patients and their reports from progress notes to incoming and outgoing clinical correspondence.

Auditing

At the click of a button, you can track all correspondence sent or received via the Medical-Objects Delivery Report.

Secure Hosting & Backup

All data is backed up and stored on our servers located in a industry leading Data Centre based in Australia.

Save Time & Money

All correspondence received will go directly into the Allied Health Explorer, no more scanning and faxing.

Send Reports

Our real-time solution allows you to send reports directly from the Allied Health Practice Software or from Microsoft Word.

Send PDFs

You can also send PDF documents to recipients in seconds. This is ideal for reports containing graphs, charts and diagrams.

Provider Directory

Being listed on our provider directory promotes your business to **over 92,000** health professionals Australia-wide.

Security

All results are protected with high level encryption and security. You can be assured that your results are safe.

What's Included?

Allied Health Explorer

The Allied Health Explorer is used for managing patient records, and for sending and receiving correspondence. The Explorer can be accessed from any computer or tablet via a web browser.

Word Plug-in (Optional)

If preferred, the Word Plug-in allows Windows based users to send reports from Microsoft Word in addition to the explorer.

Installation & Training

Our friendly helpdesk staff will perform installations and training with no disruption to your practice.

Unlimited Support

Our helpdesk operates from Mon-Fri 9am-5pm (AEST) and is backed by our helpful and experienced support team.
